Refineries • Petrochemicals • Process Industries

4th Edition of Downstream Process
Optimization Technology & Safety Conference

4th Edition of "Digitalization & Automation Tech Summit"

17-18 December 2024; Hotel Holiday Inn, Mayur Vihar, New Delhi

Reimagining Downstream Efficiency and Safety with Immersive AI Technologies

Kuldeep Singh

Principal Consultant, Author,
Global Emerging Technology Leader
Thoughtworks Technologies India Pvt Ltd

Speakers Profile

Kuldeep Singh

**Thoughtworks
Technologies India
Pvt Ltd**

Years of Experience: 20

Educational Background:

B.Tech, Computer Engineering, NIT Kurukshetra

Brief Job Profile:

Principal Consultant and Global Emerging Technologies Leader at Thoughtworks, driving innovation by shaping engineering standards, best practices, and delivering cutting edge technology solutions.

Professional Expertise:

Established Centers of Excellence for technologies like IoT, AR/VR, and Web3. Led transformative data projects and designed scalable enterprise solutions. As a writer and speaker, I actively contribute to the tech community and society, and I'm the proud author of [*Exploring the Metaverse: Redefining reality in the digital age*](#), and holds two patents in XR.

Highlights

Understanding the Immersive AI

Making Artificial Sense of The World

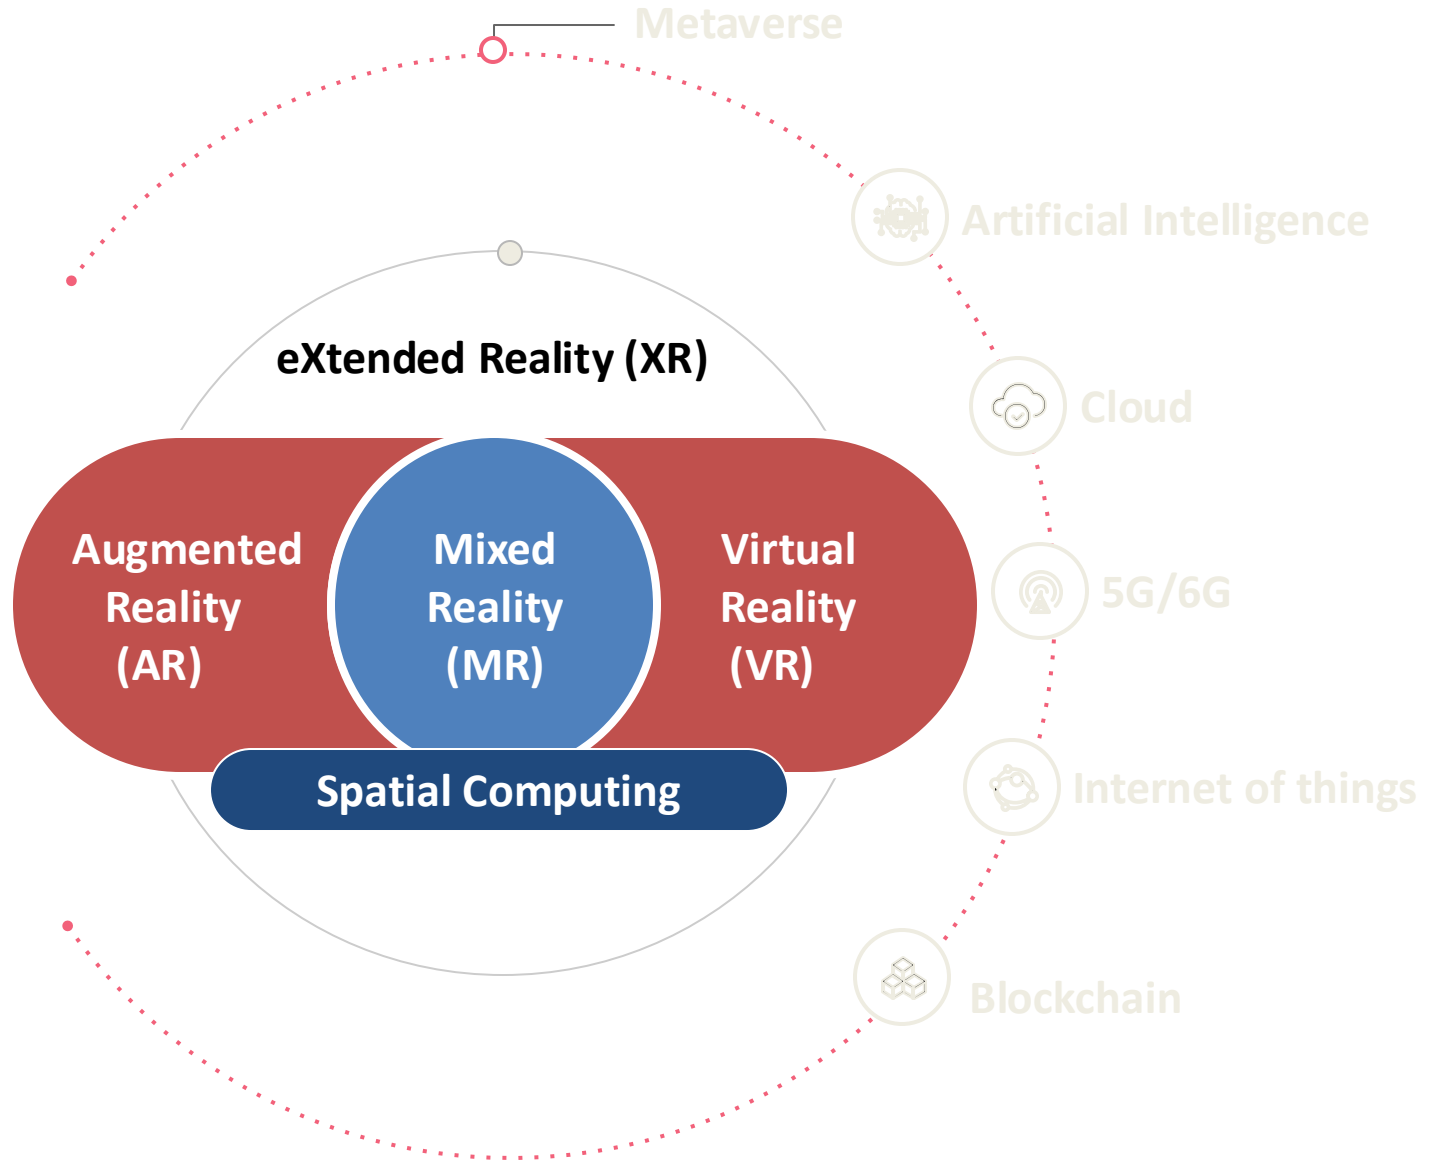

Working with the Artificial Sense

Considerations, and way forward!

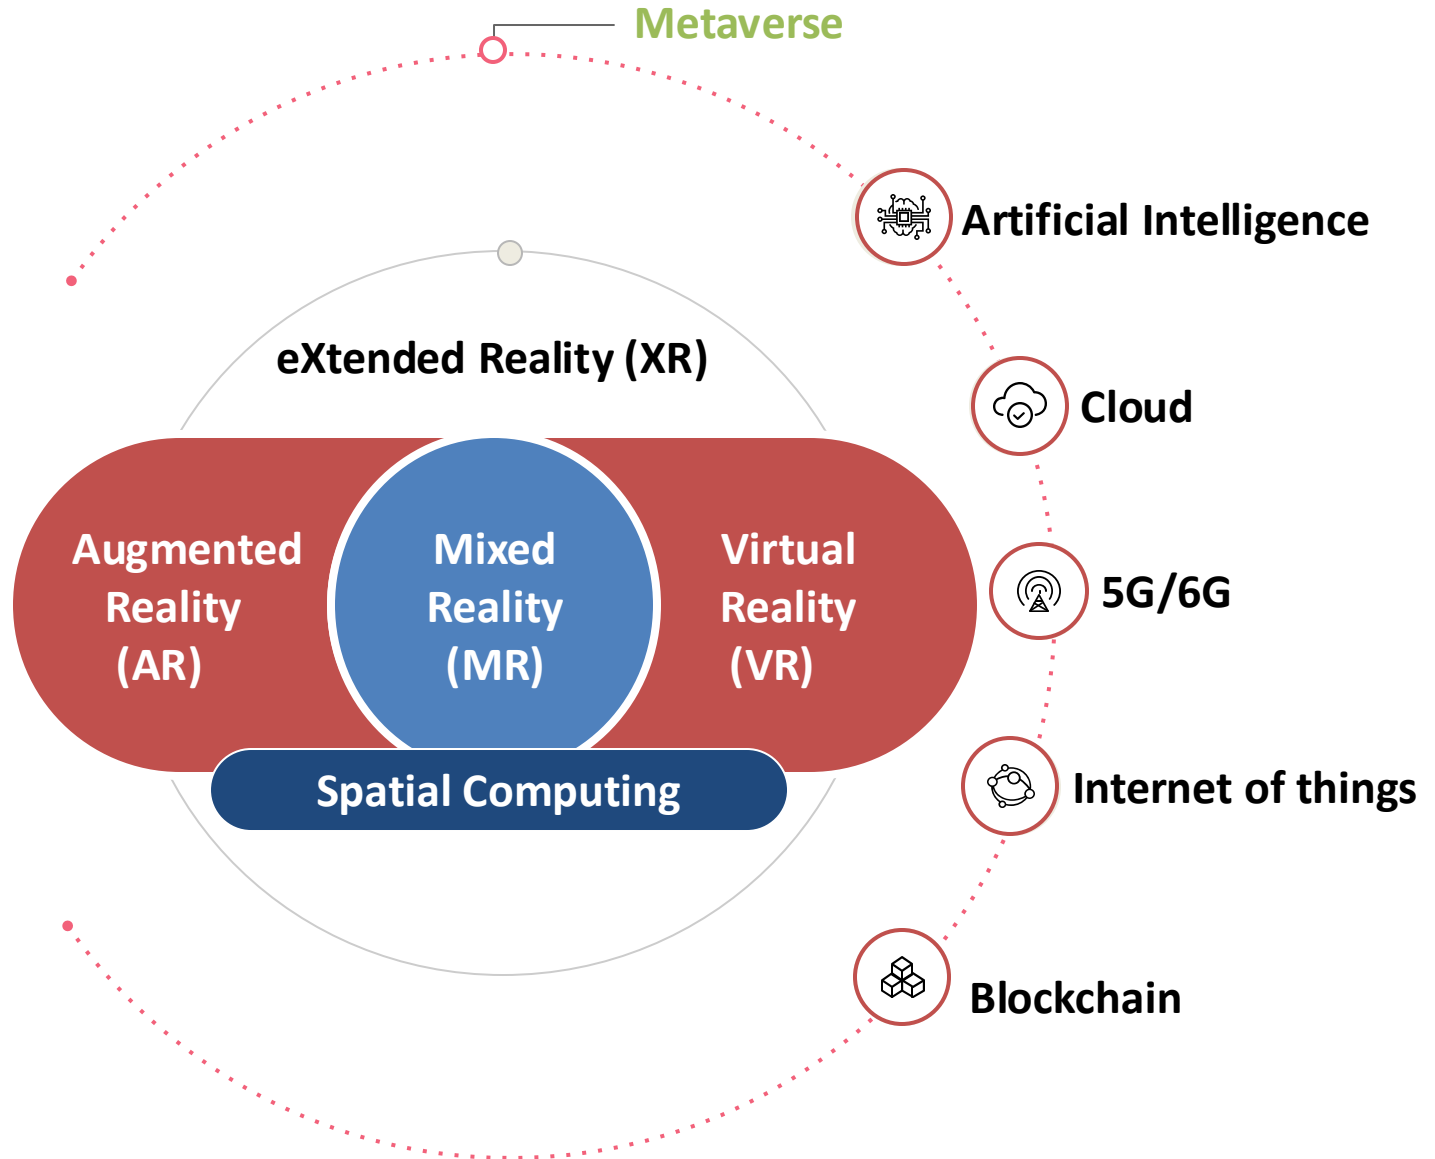

Understanding the Immersive AI

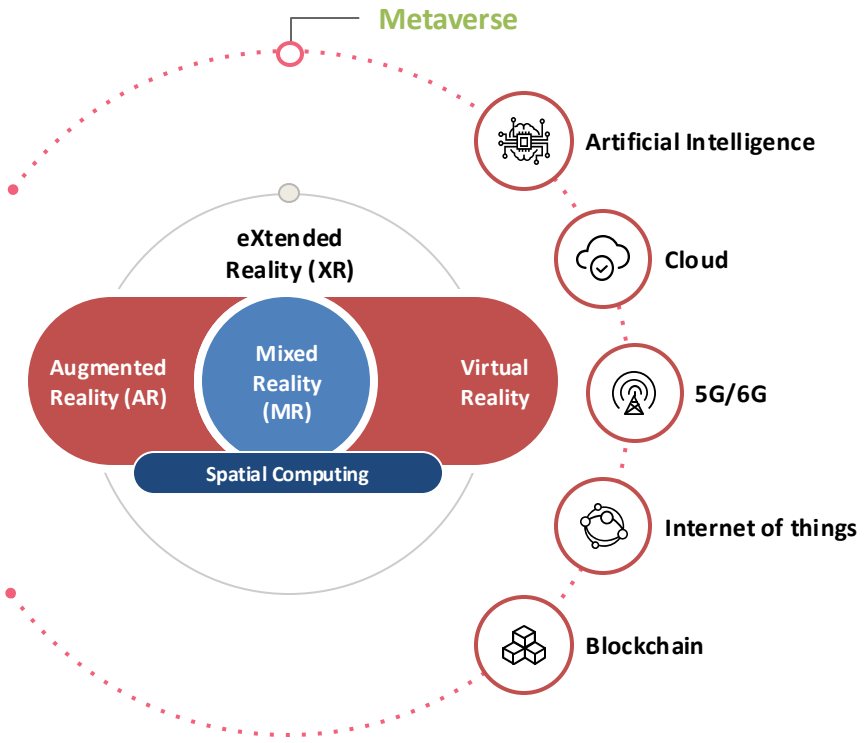

Understanding Immersive AI

Understanding Immersive AI

Understanding Immersive AI

XR beyond head mounted devices - web XR /mobile XR

Immersive experience re-ignited by Apple Vision Pro

Ecosystem shaping up with Meta Horizon OS/ Google Android XR / Qualcomm Spaces

100% Investment growth over next 5 years in enterprise operations

XR Use cases

- Simulation & Training
- Operational Efficiency

Enhancing XR experiences using AI

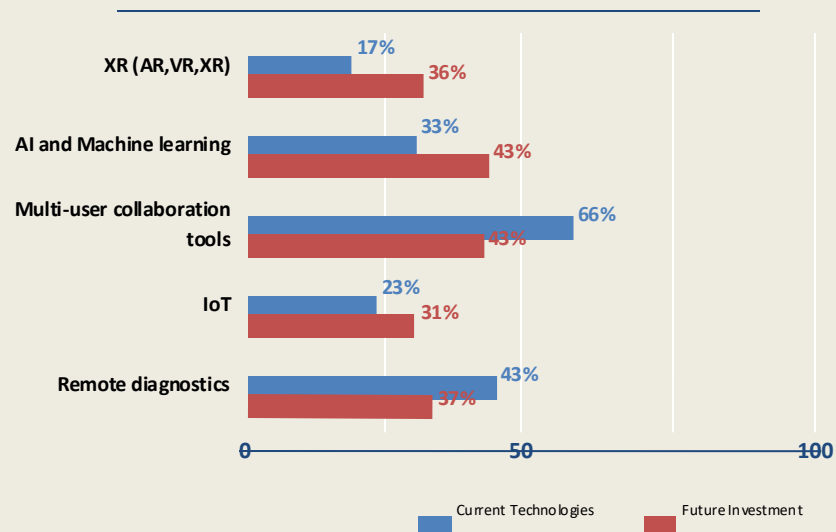

Rise of spatial intelligence systems

Key observations and trends

Enterprises are adapting their strategies to incorporate transformative XR technologies for a competitive edge

Technologies companies are investing in to optimize operations today, and what is planned for the future

Immersive AI - Making artificial sense of the World

How do we make senses of the world?

Depth Sensing

Object detection, Voice
recognition

Motion tracking - Physics, Gravity

Physical and psychological safety
perception

How do we make senses of the world?

Depth Sensing,
(Lidar, Image to 3D, NeRF...)

Object detection, Voice
Recognition

Motion tracking
(SLAM, Physics Engine)

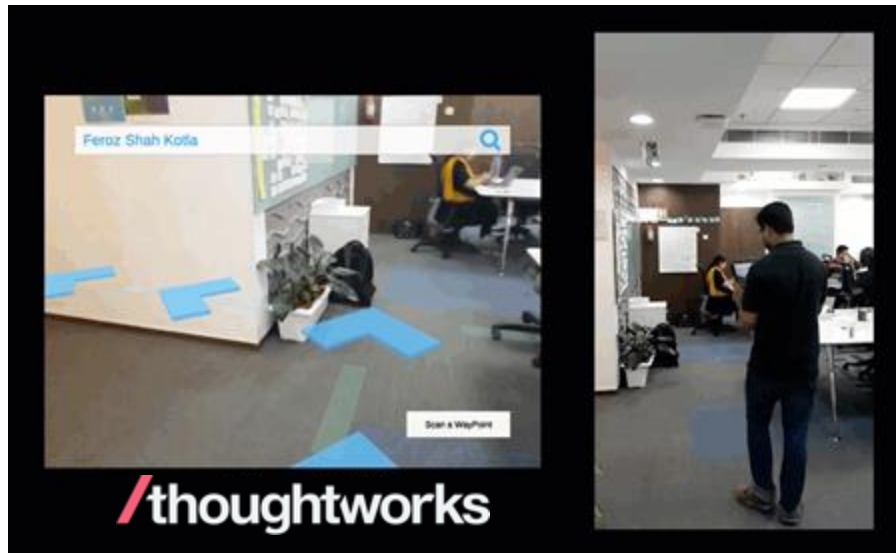

Physical and psychological safety
perception (Sensors, Actuators,
BCI - AI)

Space Aware Apps

Spatial Computing

Volumetric Apps

Spatial Anchor, World Coordinates

Map and navigation, optimal routing

Indoor, Outdoor, City Scale, beyond experiences. Social hotspot, targeted marketing and more.

Measure, Tracking Area, Volume Estimation, Progress.

Building Equity with Technology

Exploring the Metaverse

Redefining reality in the digital age

CHAPTER 4 AI Empowering the Metaverse

Introduction

This chapter explores the crucial role of **Artificial Intelligence (AI)** in the metaverse, enabling intelligent and seamless interactions within virtual environments. It covers how AI capabilities contribute to immersive and interactive experiences in the metaverse, encompassing user identification, natural language interactions, visual perception, physical interactions, spatial awareness, audio experiences, and advanced data processing. It also touches up on the research that connects the brain to computers and manipulates dreams and thoughts to bring magic of technology.

Any sufficiently advanced technology is indistinguishable from magic

— Arthur C. Clarke

Structure

In this chapter, we will discuss the following topics:

- Artificial Intelligence
- Importance of AI
- Evolution in AI
- AI enabling metaverse

Generative XR

Space aware AI bringing
new era of immersion

XR is becoming an
interface for AI

Immersive AI - Working with the Artificial Sense

Communication with Artificial Sense

| Context | Challenges | Outcome |
|--|--|--|
| <ul style="list-style-type: none"> Education Training & Onboarding Consultation & Coaching Marketing & Customer support Entertainment | <ul style="list-style-type: none"> Language & Location Age, Sex and Race Culture & background Ability / IQ / EQ Behaviour and Preferences | <ul style="list-style-type: none"> Personalized Training Virtual Communication Agents Targeted marketing Always available services Visualising AI Meet the scale |

17

| | | | | | | |
|---|--|--|--|--|---|--|
|  <p>In-store AR based engagement</p> |  <p>360-degree VR tours</p> |  <p>Virtual Artist</p> |  <p>VR based design and engineering reviews</p> |  <p>3D visualizations</p> |  <p>VR events</p> |  <p>Virtual shopping experience, fitting rooms etc.</p> |
|  <p>AR based product catalog</p> |  <p>Virtual marketing</p> |  <p>Interactive 3D Simulation</p> |  <p>Training & Employee engagement</p> |  <p>Field service</p> |  <p>Try before you buy</p> |  <p>Virtual customization</p> |

Working with Artificial Sense

| Context | Challenges | Outcome |
|--|--|---|
| <ul style="list-style-type: none"> Operational Efficiency Safety Audit and Compliance Hybrid working Remote working | <ul style="list-style-type: none"> Aging labour, shortage Outdated knowledge, Traditional trainings Working with machines Mental health Increasing Complexity and cost | <ul style="list-style-type: none"> Enhanced capability with AI assistant Human machine Integrated working Targeted upskilling Safety compliance Practice with simulation |

| | | | |
|---|---|--|---|
|  Benefits |  Enhanced Customer Experience |  Safety and Compliance |  Innovative Marketing |
| |  Increased user/staff engagement |  Operational Efficiency |  Improved service and repair |

Considerations, and the way forward!

Considerations, the way forward

Challenges

- Privacy and Identity Protection
- Dependence
- Social Isolation, Mental issues
- Awareness
- Sustainability - Viability, Bearability, Equitability

The Way Forward

- Collective effort - Academia, Industry, Businesses, Governing body, and people.
- Create awareness, use it wisely.
- Contribute in developing standards and and practices, open ecosystem.
